

PLINTHS

- 1. Plinths are used at the base of the pillars supporting the Karahafu curved gable at the front of the Seiden.**
- 2. Test carvings were created based on old photographs and plaster models preserved from the Heisei Restoration.**
- 3. During the main production, the supervisor and creator worked together to ensure the plinths maintained the overall volume and form,**
- 4. paying special attention to areas that required sharp carvings.**
